Welcome to NUDE Magazine issue #1
We hope you like the premiere issue of our Magazine! We have gathered the best photographers from around the world for this issue.

Due to the low barrier that epublishing now offers there are lots of photography magazines appearing on the market but very few are able to deliver a level of quality that "the nude magazine" delivers. Marc and his team are investing time selecting a top tier selection of diverse fine-art nude photographers from around the globe... and it shows. Enjoy the first issue! -- Iain Lea

I O N A   C O L L E C T I O N

IONA Beach park is an exquisite piece of land located right next to the Airport in Vancouver BC Canada. It has dazzling landscape and because the lower mainland area is already crowded with majestic beaches right in the heart of the city. Most city folks looking to spend a day on the beach tend to favor the city shores as most beaches are within walking distance and the more adventurous would trek to the world famous "Wreck Beach" right on the edge of the University campus. So for the most part IONA beach is deserted aside from on the weekend or evenings.

In the spring of 2016 I decided to explore IONA' sands and it's more remote area. I started to shoot landscape nudes with some of the models I spend the rainy season working with around Vancouver. Right from the start the images were stunning and got me totally hooked. It wasn't long before I had half a dozen sessions done and booked another 6 and expended the project to include an exhibit, Book and offer some of these for print and digital publications.

Welcome to the IONA Collection! I hope you like!

"I have always had a romantic outlook on life, With my inclination towards dramatic expression and theatricality modeling has come quite naturally to me. I love to tell a story from my eyes to my fingertips. My education in performance arts began when I was only 8 which led me to later pursue my bachelor degree in theater. I feel that I am very in tune with my body, aided by a background in ballet which has helped me to understand it's angles and form. My dream is to travel the world and to pose with the stunning nature that this world has to offer.

For me, there is nothing as beautiful, vulnerable or raw as the nude female contrasted with her landscape."

VASSILIS PITOULIS is a Greek Photographer. His work is distinguished by a very particular personal style, predominantly using a black and white canvas, while demonstrating an impressive and distinctive ability to play with light.
He started experimenting with fashion photography while living in Paris, in 1983, but never had the chance to devote himself fully to the art.
However, in recent years photography seems to have taken over and he seems to have generated immense appeal on a global level.

His work has been eminent on social media, gaining thousands of followers and attention on a daily basis. Recently he was awarded with the Monochrome Photography Award as Professional Nude Photographer of the year 2016.
We see his work constantly making magazine covers, while being requested to give out workshops in the U.S.A that seem to be sold out early on.
His ambition drives him across the world on a never ending quest to render his ideas and inspirations.
